WOOD-MILNE **SPENCER MOULTON**

BC 1919 **AD. 1919**

The Roman chariot-driver, erect and undisturbed by the terrific motion of the car, was dependent for safety upon the reliability of the wheels. To-day the motorist's peace of mind is assured by the security and dependable service found in Wood-Milne & Spencer Moulton Motor Tyres. Their maximum speed, mileage returns and endurance are the outcome of fine material, honest workmanship and tested efficiency. See our Exhibits at Motor Show
